

Culverhayes Nursing Home

The home, which was originally Culverhayes School, occupies a prime position at the highest point of Lymore Avenue, with spacious grounds and stunning views of Bath.

The home provides care and support for people with Dementia and/or Mental Disorder. The accommodation is arranged in three suites so that care and support can be focused to meet the varying types and levels of need of the people living in the home.

Hayes Suite provides person centred nursing and personal care for people who have Dementia and require higher levels of psychological support in addition to nursing intervention. People who reside here will be supported in their activities of daily living.

Culver and Lymore Suites provide person centred nursing and support for people who have complex Dementia needs and/or Mental Disorder. Support and management is provided for people who have behavioural issues. People who reside in these Suites require high levels of psychological support, nursing intervention and high levels of supervision with activities of daily living.

Perhaps the most distinctive feature of the home is the secure grounds that have been developed around the suites to provide a range of specially designed areas; a sensory garden, a gardening patio and a walking trail that wraps around the rear part of the building.

At Culverhayes, as at all the Cedar Care homes, you'll be part of a happy and stimulating household, where our standard of care improves the quality of life for everyone - adding life to years.

We look forward to welcoming you.
