

Woodside Nursing Home

Woodside is close to the centre of Bath, in the beautiful area of Bathwick.

We believe our unique caring service has an ideal setting in Woodside. From its hillside location, residents can experience panoramic views of Bath including the local area with its striking buildings and abundant foliage.

The home is arranged in three suites so care and support can be focused to meet the varying needs of the people living in the home. All suites will accommodate people from middle to old age.

Elm Suite, provides person centered nursing and personal care for people who need end of life or palliative care. Respite care can also be provided. These are dedicated beds specifically

set aside for people that are coming to the end of their life and which fall into the palliative and/or terminal care categories.

Oak Suite, provides person centered nursing and personal care for people who need acute short to medium term nursing care. This can include respite, convalescence, placement whilst awaiting specialist external assessment for a permanent care package, hospital admission avoidance and packages for people with complex or unstable needs (Continuing Healthcare).

Birch Suite, provides person centered nursing and support for people with chronic physical conditions or people who require long term care purely due to conditions resulting in physical disability. Birch suite will offer a

level of care that maintains and improves independence, encouraging people to remain part of the community and families and friends to be part of the home.

Words like 'sanctuary' and 'haven' come to mind when describing our home, and for good reason. The extensive, landscaped grounds open to tranquil woodlands at the rear. Once inside, look out of almost any window and you'll see stunning views, framed by lush greenery, to comfort, soothe, inspire and reassure.
